

Plan your stay

Description

Plan your stay in Toledo

Toledo, Spain, has a Mediterranean climate, which means hot and dry summers.

In July, temperatures can reach up to 34°C (93°F) during the day and drop to around 20°C (68°F) at night. Usually July is the warmest month of the year.

July is a dry month with an average of 7mm (0.3 inches) of rain. This makes it the driest month of the year. It is essential to protect yourself from the sun and stay hydrated during hot hours.
